EDUCATION

Imperial College London, United Kingdom   *September 2007*
MSc. in Advanced Computing

Ss. Cyril and Methodius University, Skopje, Macedonia   *September 2005*
BSc. in Computer Science

EXPERIENCE

Amadeus SAS   May 2008 - Present
Research Engineer   *Sophia Antipolis, France*

· Designed and created a novel Semantic Search platform, implemented and used in Amadeus.net.
· Major contribution to two key Travel Intelligence modules (Revenue Tracking and Search Analysis). Responsible for design, planning, gathering requirements from key TA clients, implementation, as well as managing risks and data legality constraints.
· Started and promoted Inspire Me, one of the first ever Google Glass apps, a showcase example of a multi-site and multi-competency collaboration project.
· Supervised interns resulting with work pushing the boundaries on geographic named entity recognition.
· Performed one of the first ever implementations of a full docker workflow.
· Innovated and held presentations and conferences on various subjects at Amadeus at Airline Digital Conference, Top Resa, Amadeus Leadership Conference amongst others.

Sun Microsystems Ltd.   December 2006 - October 2007
Sun Campus Ambassador   *London, United Kingdom*

· Led promotion of Sun technologies (Solaris, SPARC, Java) on campuses in the UK by direct student contact, organizing product demos and arranging guest speakers.

Institute Jožef Stefan   August 2005 - September 2005
Researcher   *Ljubljana, Slovenia*

· Performed linguistic research over Macedonian text corpuses with the end goal of achieving reliable machine morpho-syntactic corpus tagging.
· Designed and developed the first Macedonian morpho-syntactic corpus tagger.

Grupo Stela   October 2004 - March 2005
Software Engineer   *Florianópolis, Brazil*

· Led the design and implementation phase of a project performing data mining techniques on a digital library of thesis.
